

# FX FRACTAL

## System Manual

### **Risk warning**

Before you begin trading on Real account please carefully consider your investment goals, risk and experience you have. It should be noted that Forex is a leverage based market. It should be remembered that leverage can work both in your advantage and disadvantage as well. Therefore there is high risk of losing a part or all of your financial input placed on your account and because of that you should remember to trade with the amount of money which you can lose without taking any influential financial damage.

### **Disclaimer**

Signals generated by the system are not investment recommendations. All materials included on the website, as well as all system components (indicators, instruction manual) are for educational purposes only. Creators of the system will not take any responsibility for any profit or loss/damage caused by using the system.

- Restart your MT4

# 1. Entry Indicator.

FX Fractal provides very easy to read signals.

**RED Arrow = SELL SIGNAL**

**GREEN Arrow = BUY SIGNAL**

We provide 3 x different modes (templates) that fits the best: scalping/daytrading/swingtrading.

## 2. MTF Module.

Standard bundle contains also great confirmation tool called 'Fractal MTF'. After picking your trading template (scalping/daytrading/swing trading) your chart will look like this:

### 3. MTF Module Features.

MTF dashboard provides many useful features:

Mirror – show the charts upside down.

M1-M5-M15-M30-H1-H4-D1-W1-MN – shows the tracked timeframes. We recommend to use 3-4 on single chart to easily visualization of the whole market view.

Recommended timeframes to use for filtering:

- Scalping: M15/M30/H1
- Daytrading: M30/H4/D1
- SwingTrading: H1/D1/W1

MA1/MA2/MA3 – allows to show up to three MA's (recommended to leave it as is).

HA – Heiken Ashi type of candles

SD – enables supply and demand levels

STO – enables stochastics oscillator

SCROLL LINE – allows to go backwards with the dashboard charts with one horizontal line (movable by mouse).
